

NEW ONLINE COURSE ON DYSGRAPHIA!

Accredited training in identifying and supporting students with Dysgraphia

Dysgraphia continues to confuse educators and allied health professionals who are unsure whether the main issue is composing a piece of writing or the poor motor skills of student that leads to untidy and illegible handwriting. Presenter **Jillian Zocher** brings you the latest findings and clarify the confusion. More importantly she provides informed evidence-based research as to how to identify and resolve the issues facing teachers and how to support the students affected by it.
